## CALIFORNIA STATE UNIVERSITY, NORTHRIDGE

A liberal arts university offering deaf students over fifty technological and professional programs in the mainstream of the university for more than twenty-six years.

### National Center on Deafness

- Over two hundred deaf students each year prove that they can participate in the activities offered by a major university.
- Deaf students attend the same classes, participate in the same extracurricular activities and achieve the same goals as their peers.
- Participation in all University activities is facilitated by the services provided by the National Center on Deafness. These services include: interpreting, notetaking, tutoring and counseling.
- Deaf students are involved in all aspects of the University as well as their own organization (the Deaf CSUNians) and extracurricular activities.
- Over six hundred students have graduated with Bachelor's and Master's degrees and have successfully gained competitive employment in fields for which they have trained.
